Full functioning BAEKTEL network

DEV 4.2

BAEKTEL

Blending academic and entrepreneurial knowledge in technology enhanced learning

Spajanje akademskog i preduzetničkog znanja kroz tehnološki potpomognuto učenje – BAEKTEL

www.baektel.eu

Br. projekta:

544482-TEMPUS-1-2013-1-IT-TEMPUS-JPHES

Akronim projekta:

BAEKTEL

Puni naziv projekta:

**Spajanje akademskog i preduzetničkog znanja
kroz tehnološki potpomognuto učenje**

Datum početka projekta: 2013-12-01

Trajanje:
3 godine

DEV 4.2

Full functioning BAEKTEL network

Datum predaje: 2016-10-30
Stvarni datum predaje: 2017-04-30

Naziv glavnog učesnika za ovaj predmet isporuke:
Univerzitet u Kragujevcu (UNIKG)

Sponzor projekta **TEMPUS IV program**		
Nivo diseminacije		
PU	Javni	**X**
PP	Ograničen na druge učesnike programa (uključujući službe Komisije)	
RE	Ograničen na grupu koju precizira konzorcijum (uključujući službe Komisije)	
CO	Povjerljiv, samo za članove konzorcijuma (uključujući službe Komisije)	

Broj predmeta isporuke (dev):	4.2
Naziv predmeta isporuke:	Full functioning BAEKTEL network
Radni paket:	Radni paket 4 – Development of initial domain specific OER content repositories
Glavni učesnik:	Univerzitet u Kragujevcu

Description of the activity carried out

Activity 4.2 resulted in a fully functional BAEKTEL network, including hardware, software and communication resources, as well as published multilingual learning materials on every partner institution's node. In addition to that the available OER and other TEL content are indexed within the common BAEKTEL portal and thus made available for searching and browsing by users within the entire network.

During the meeting in September 2015 (Dissemination and technical meeting Belgrade, September 25th) partners agreed on the minimum number of OER materials, which is three for each partner. Activity 4.2 began with a delay of three months until all partners have set up the necessary equipment and software platforms to work.

Specific and measurable indicators of achievement

Partners uploaded the final versions of EDX courses on the platform http://edx.baektel.eu/, while for other types of OER partners submitted web addresses where they can be accessed.

In addition to the aforementioned, the partners have completed metadata on their courses on the portal http://meta.baektel.eu/. This activity lasted until the end of 2016, which implies a greater number of created edX courses and other types of OER materials and amendment of metadata about new resources.

Metadata portal include multilingual description of every OER which implies more possibilities in search process.
